

Control Series

AGA 60

IDEAL FOR SMALLER KITCHENS

Just like the traditional AGA cooker, each area of the AGA 60 is pre-set to different heats. On this model this is achieved by electric elements embedded in the cast-iron ovens and under the hotplate. This even radiant heat ensures great results whatever you cook, meaning every dish you serve tastes delicious. Put simply, the AGA 60 treats food as it should be treated –

ensuring that you get the very best out of your AGA. The top oven can be set to roasting, baking or the off setting. The roasting and baking settings can be achieved from cold in around 60 minutes. The lower simmering oven can also be up to full heat in the same time.
